

Taufik islam

Frontend Web Developer

I am an enthusiastic and passionate web developer. I pursued my BSc degree in Software engineering. Although I can code in any field like Desktop Development or even cross-platform mobile applications, my main specialization is Web Development. I pursue perfection in my projects. I put dedication into every project that I do. I hope my dedication will help me to explore my expertise, and boost my career plan.

Experience

○ 2021 - 2024

Creative It institute

Mern Stack Developer

As a MERN Stack Developer at Creative IT Institute, I leverage my expertise in MongoDB, Express.js, React.js, and Node.js to architect and develop robust web applications. Collaborating with cross-functional teams, I translate client requirements into scalable solutions, ensuring seamless user experiences and efficient backend functionality. From designing database schemas to implementing frontend interfaces, I thrive in crafting versatile applications that meet both technical and business objectives. Continuously learning and adapting to emerging technologies, I contribute to the institute's innovative projects, driving forward its mission of excellence in IT education and industry-relevant skill development.

○ 2019 - 2024

Creative It Institute

Frontend Web Developer

As a Frontend Developer at Creative IT Institute, I'm responsible for bringing designs to life through interactive and visually appealing web interfaces. Leveraging my proficiency in HTML, CSS, and JavaScript frameworks like React.js, I collaborate closely with design and backend teams to ensure seamless integration and optimal user experiences. From responsive layouts to cross-browser compatibility, I meticulously craft intuitive interfaces that align with project goals and client expectations. Constantly staying updated with industry trends, I contribute innovative ideas to enhance the institute's digital presence and educational platforms, playing a vital role in advancing its mission of empowering future IT professionals.

○ 2019- 2021

Fiverr

UI & UX

As a UI/UX Developer at Fiverr, I specialize in creating captivating and user-centric digital experiences. With a keen eye for design and a deep understanding of user behavior, I collaborate with clients to transform their vision into intuitive and visually stunning interfaces. Leveraging tools like Figma, I craft wireframes, mockups, and prototypes that streamline the user journey and enhance engagement. Continuously iterating based on user feedback and industry best practices, I ensure that every product delivers a seamless and delightful experience.
